Official Paper of Barber County

The legislative session is only about two weeks in the future.

Gov. Stubbs and Santa Fe Ripley are still at it. If it keeps on awhile longer Ripley will regret that he ever whooped it up for Stubbs.

Senator Aldrich has finally conceded this much: he favors tariff revision by piece-meal. But he will hardly consent to a revision of the rubber schedule first.

Nepotism isn't the terrible crime it was in the old Pop times. Judge West, one of the newly elected associate justices of the Supreme Court, announces that he will appoint his son stenographer.

The senatorial investigation committee has vindicated Senator Lorimer. To do this the committee had to find that the confessions of bribery were not true. The Senate will soon be able to work miracles at its present pace.

Representative Champ Clark has issued a statement outlining his platform as the prospective speaker of the democratic house of representatives in the next congress. He proclaims himself in favor of the appointment of committees of the house by a committee rather than by the speaker, and he states his belief that the tariff should be revised schedule by schedule rather than in one single bill. These two subjects, says Mr. Clark, are the ones upon which he has been continually importuned to make some statement.

Frank Hodges, Senator Hodges' big brother is playing in hard luck. Before George became a senator and statesman Frank was the big thing. He was a crack shooter and a noted hunter for big game. When the senatorship came into the family Frank became known merely as the Senator's brother. The newspapers credited George with Frank's hunting exploits, and in the numerous anecdotes of boyish adventures George was always the leader. Frank is a humorist and he stood for all that and thought it funny. The other day Frank wrote a humorous advertisement for the Register. The Kansas City Star copied it and credited the Senator with being a humorist. Now it is well known that the Senator never wrote anything funny in his life and that he seldom laughs, while Frank rates his ability as a humorist and man of letters above all the glory of statesmanship, mountain climbing after mountain goats and bear. He therefore swears that he will not stand for this last misappropriation of his laurels and wants it understood that the statesman of the family couldn't write an ad that would be worth a d—m.—Olathe Register.

#### The Jubilee Movement

Fifty years ago was organized the first Woman's Mission Board and this year brings the Jubilee anniversary of Woman's organized work for missions. Great things have been accomplished during the past fifty years and the Christian women of America propose to make much of this anniversary.

A great union movement has been inaugurated among the women of all evangelical denominations and a series of conventions reaching the large cities from San Francisco to New England are in progress, to culminate in a great mass convention in the city of New York in May. This is proving to be the same mighty influence among the Christian women of America as was the Laymen's campaign last year for the brotherhood.

The Christian Woman's Board of Missions has undertaken to hold ten sub-rallies in Kansas and one of these will be held in this section. All who are interested in the progress of missionary enterprises should watch for announcements of these rallies. Speakers of national reputation will assist on the program. All who can possibly do so should plan to attend this unique and significant gathering.

#### The Ship Subsidy

I observe that the president wants congress to pass a ship subsidy bill, that is, tax the whole American people in order to give bounties to a few ship owners. The thing is vicious in principle and besides that it won't work. It won't build up an American merchant marine. It is just about as unreasonable to try to build up a merchant marine that way as it would be to go into the business of raising oranges in hot houses in Kansas.

A merchant marine can be built up in this country and without any subsidies except, perhaps, some reasonable discriminations in the way of ocean mail contracts. Let shipping be free. Let men who want to go into the ship business get the ships where they can buy them cheapest and man them with sailors where they can get them. Admit these vessels to registry under the American flag and in a few years this country will be doing its share of the ocean carrying trade of the world.

A ship subsidy is a special privilege. It is throwing a burden on 99 per cent of the people of the country in order that 1 per cent may prosper. It is wrong and if any Kansas congressman votes for it he ought to be retired from congress at the first opportunity.—T. A. McNeal in Topeka Mail and Breeze.

It is with a great deal of pride that his old Barber county friends read Mr. McNeal's interesting editorials these days. On national questions, especially, he is far in advance of his party and it is indeed a misfortune that the Republicans of the first district failed to send him to congress. It must be admitted, of course, that in this matter of ship subsidies he has taken a position contrary to his party's stand, but he is doing a great work as an educator.

#### Free Trade With Canada

It is said that the liberal application of the policy of the last Republican national platform—a tariff that measures the difference in cost of production at home and abroad plus reasonable profit—would result in immediate free trade from Canada.

It would be interesting to try it.

We have free trade between New York and Ohio and between Wisconsin and Minnesota. And the stars still wheel in their course.

Isn't it just possible that this would be the case if we indulged the same luxury between Michigan and Ontario?—Wichita Beacon.

#### Those Shrinking Senators

There should really be no surprise over the hesitancy of the Senate to pay attention to the evidence of corruption in the legislature that elected Lorimer. Many senators have a personal reason for discouraging the tendency to make inquiries into the circumstances attending senatorial elections.—Star.

#### GOVERNMENT SEEDS

I will be glad to send garden or flower seeds to any person in my district desiring them. There has been such a waste by general and indiscriminate distribution in the past that seeds will be furnished by me this year on application only.

Please drop me a card in care of House of Representatives, Washington, D. C.
